

The SPCA offers a low cost spay and neuter program! To learn more or to get your coupon today click [here](#)

The SPCA Says Goodbye to Bettie Cashion

"Bettie Cashion who has been our Secretary/Treasurer for the past 17 years has retired from her position at the end of this June. As evidence of all the work she did, we have had to elect 3 people to fill her shoes! We welcome Dara Hooper as Treasurer, Melissa Petersen as Recording Secretary, and Helen Hunter-Knight as Corresponding Secretary. Bettie plans to remain active and continue the fundraising activities she has done for the shelter over the years - the NO GO Event in the winter and the Newsletter in the summer. Bettie was with the SPCA when the city first asked the group to start running the shelter back in 1998 and has always done so much for us and all our furry friends. Her dedication and hard work will be remembered and she will be greatly missed."-Judy Wheaton, Shelter Director

AUDREY UPDATE

Audrey has made it back home! She can now move her head and does it constantly to check out her surroundings. She can roll over on her own, and eat without having to have her head supported any more. The Vet School was reluctant to let her go (they had become very attached). We are pleased with her progress even though there is still a guarded prognosis for her ever really walking well. Her quality of life has been significantly improved by the surgery so far. Audrey has promised to provide snippets from her diary while she was at MSU in a few days. She still has many medical expenses so please go to [gofundme.com/audreyprcspca](https://www.gofundme.com/audreyprcspca) to donate and to share Audrey's story!

You're Invited to a
Puppy Shower!
Saturday, August 15, 2015

A letter from the state veterinarian acknowledging PRC SPCA spay & neuter program:
PRC SPCA,
Both Beth Adcock and I want to extend our sincere congratulations on the many successes of your program. The reduction in population and euthanasia are impressive. It is so great that you have kept up with the numbers because they are integral for proving the

The PRC SPCA received a grant from the non-profit organization Best Friends, which was used to get cats fixed that showed up stray, looking healthy or that people brought to the shelter to surrender and agreed to keep if we got it fixed. The results have been great, so great we will be featured at the Best Friends

effectiveness of spay/neuter programs. The number of partnerships you have fostered and maintained to drive the program is also impressive! Lastly, we believe it is highly commendable that the program considers both human and animal health through the rabies program. Again, congratulations! The program you have established is certainly a model program for MS. Thank you for taking such a leadership role in the protection of both human and animal lives.

Sincerely,
Brigid

National Conference this year!

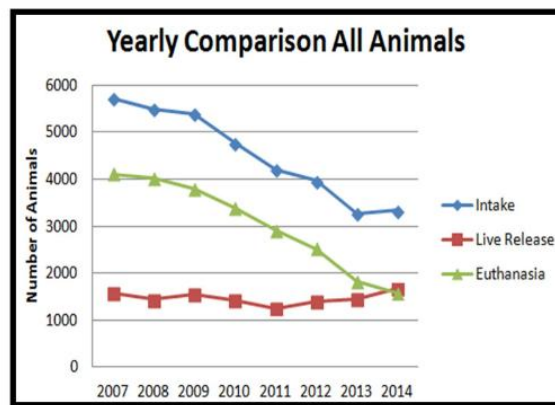

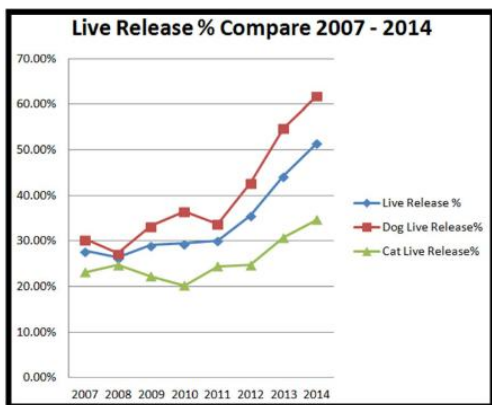

Save Them All Results:
