The SPCA Wants Your Old Shoes

The SPCA is partnering with Woolfrax to host a shoe fundraiser. Woolfrax shoe drive is a way for shelters to raise money, the community to donate shoes that would otherwise end up in landfills *and* help 26 developing countries by donating the shoes collected. The shoe drive has started so bring your used shoes to the shelter or to one the locations below:

First United Methodist Church
Lutheran Church
April's
Melindas
Pooch Pit
PRC High School
Fashion Recycle
Hide-a-way Lake Lodge

Rabies, Wellness Vaccination & Microchip Clinic

When: November 14 10a.m. to 4 p.m.

Thank you to everyone who participated in our calendar photo contest! The winners are:

Dogs: Titan, Reese, Mollie & Millie, Boomer, Sadie Bug, Gunner

Cats: Meow, Rusty, Skeeter, Jezzabelle, Marty, MistyStar

SAVE A LIFE!

FOSTER A PET!

Introducing The Adoption Ambassador Program

This will be a new program that allows the fosters to find the perfect home for the animal in their care. The foster home does all aspects of the adoption and the dog does not go back to the shelter for any part of the adoption process. We will supply all medical needs, food, bedding, bowls, toys, adoption vest, collars, leash and business cards for your foster. With the cats, you can either take them home or do a virtual foster. If interested please call Dara at [\(985\)705-5462](tel:9857055462).

Lost pets
with microchips
are up to 20 times
more likely to return home.

Microchip Reminder

About a month ago a stray cat was brought to the shelter, the lady had brought it in because she did not like cat paw prints showing up on her car. The cat was microchipped but unfortunately the phone number on the registration was no longer in service. The micro chip registry gave us the number that was listed for their alternate contact. Fortunately for all involved, this number worked and we were told that the people had moved but were very sad their cat went missing 10 MONTHS ago. They provided us with the phone number and we were able to find their home. Please microchip your pets and register them to us so their home

We encourage people to call and make an appointment to surrender animals. This allows us to plan our intake and arrange room ahead of time to house the animals they are bringing in. In the shelter, having space means saving lives. We only have so much room at the shelter and if we get in 100 animals in a day the outcomes for those 100 is different if we can space them out, allowing us to find homes, fosters and/or rescues. If you show up without an appointment and can come back later, you can schedule an appointment. If you insist on leaving them without an appointment there will be a \$20 fine. If you call ahead for an appointment or come back later, there is NO fine and NO fee.

1. Except for very social dogs and cats, pets should be kept in a room away from the front door during trick-or-treating hours. Little goblins in scary costumes may frighten your pet.
2. Place flame decorations (i.e. candles and jack-o-lanterns) out of your pet's reach.
3. Keep candy away from pets, many sweets, especially chocolate, can be toxic to pets. Candy wrappers can also be swallowed, instead give your pets their own treats.
4. Keep decorations that pets could chew on (i.e. streamers, fake spider webs) and wires from electrical decorations out of reach.
5. Do NOT let the family dog accompany your kids trick-or-treat outing. Children may have a difficult time handling a pet during the festivities.
6. Do NOT put your pet in a costume unless you are sure they will enjoy it (some pets do). If you dress them up, be sure the costume doesn't constrict their movement or hearing and doesn't impede their ability to breathe, bark, or meow.
7. Make sure your pet's costume doesn't have any small, dangling or easily chewed-off pieces that they could choke on. If they will be outside, put reflective tape on their costume.
8. AND MOST IMPORTANT - please be sure your pet has a collar with ID and/or microchip just in case they do get away and get lost during the festivities.

We attribute a large part of our reduction in intake and euthanasia to the community's participation in our S/N program

YTD	Intake			Live Release			Euthanasia			Live Release %		
Year	Dog	Cat	Total	Dog	Cat	Total	Dog	Cat	Total	Dog	Cat	Total
