## Holiday Pet Safety Tips

1. Mistletoe and holly are poisonous to pets and pine needles can be harmful, keep out of pet's reach.
2. Shiny tinsel and ribbons on gifts are attractive to cats and can be swallowed many times resulting in surgery.
3. If your pet is active, secure Christmas tree to the wall or ceiling. Tree stands should be covered to prevent pets from drinking tree water with chemicals. Use unbreakable ornaments hung with string instead of hooks.
4. Keep pets away from fireplaces or burning candles.
5. Remind visitors to watch for animals when opening outside doors. Make sure your pet is wearing current identification tags and/or have microchips...just in case.
6. Tape exposed electrical cords to walls or floors to ensure no chewing or tripping. Unplug lights when room is unattended.
7. Watch party snack trays, chocolate and other human foods can be toxic to pets. Keep leftovers in sealed containers and trash lids secure, even chewed aluminum is dangerous for pets.
8. If your pet is nervous around a houseful of people, keep him in another room away from all the excitement.

### Thank You for Supporting the SPCA

Rabies/Wellness Clinic was a great success. The shelter gave over 400 rabies vaccinations, 350 wellness vaccines and 100 microchips. The clinic gets bigger and better each year and we appreciate everyone's patience with the long lines. There was a huge attendance and the SPCA would like to thank everyone who helped or came and showed their support.

Super Neuter Coupon Sale had a huge turnout. Over 200 coupons were sold at C-Spire in the short time the SPCA was there on November 6. Thank you to C-Spire for inviting us to attend their event and to the community for their involvement and participation in the spay/neuter program. The program is making a HUGE impact reducing the number of animals that are brought to our shelter.

#### YTD compared with same time in previous year

We attribute a large part of our reduction in intake and euthanasia to the community's participation in our S/N program
